ENLARGEMENTS

THE pleasure of possessing a good negative can be materially increased by having an artistic enlargement made for framing.

The excellent facilities in our photographic workroom insure the very best results. Enlargements are made in black-and-white or brownsepia tones, ready for framing, at a very moderate cost.

NOTICE

THE negatives not printed are failures due to incorrect exposure or some other error.

We are prepared at all times to analyze these failures for you or give any other needed information helpful towards getting the very best results with your Kodak.

WE BUY AND EXCHANGE ALL MAKES OF CAMERAS

Hand-Craft Enlargements from Your Best Negatives

A negative that makes a good contact print will make an excellent enlargement.

An enlargement reveals detail and pictorial qualities that are unnoticed in the small print.

We shall be glad to look thru some of your negatives and to assist you in your choice of style and size.

We make rich etch-like enlargements in Black and White or in Sepia, the quality of which will satisfy the most exacting amateur.

OUR PRICES ARE MORE THAN REASONABLE.

How To Get Better Pictures

In the first place don't let early mistakes dishearten you.

Hold camera firmly in hand when taking a snapshot.

After taking a distant picture do not forget to adjust scale when taking a close-up immediately afterwards.

Do not take pictures against light or sun, as fog will result.

Heavy white streaks across pictures indicates a leak in bellows or box.

Thin or weak negatives are the result of under-exposure.

Get a copy of "How to make Good Pictures." Sells for 50 cents. Worth it, too.

WE BUY AND EXCHANGE ALL MAKES OF CAMERAS.
